

Special Metal Ring Ink Cup (TCIC)

While preserving all the positive traits of its ceramic counterpart, the TCIC exceeds limitations with its durability and outstanding performance. It raises the bar for the pad printing industry.

FEATURES

- Exceptionally durable - up to 4 times the lifetime of a ceramic ring
- Specifically designed for long production runs
- Ideal for heavy pigmented ink
- Innovative ring edge design that optimizes printing plate cleaning
- Magnets are sealed individually to avoid chemical reactions with ink
- Size : Diameter 90 mm

TCIC cleans printing plate spotlessly
