

PFD Development Update

By the announcement of PFD since 2018 agent meeting, there are on and off PFD inquiries from Agents on different 3D product surface for hot stamping, unfortunately slow down by Covid in 2020.

However, our PFD technology development never stop. We have achieved great success PFD consumables like foil and glue. We also developed 4 standard PFD machine models to fit different applications different budge. Both machines and consumables are available.

We also putting in more marketing afford like new PFD Brochure, more PFD samples, Videos to help agents find new applications. We are ready to do sample prints to match your new marketing and sales activities.

Don't hesitate to contact me. Let us know how we can help promote PFD in your country.

Best regards,
Ricky
